"We called him Batman because he just showed up in the middle of the night, and just out of nowhere, he saved the day for us!"

"It was such a cold night. I woke up because I smelled heat. As weird as that sounds, I smelled heat. I looked out the back door to our deck and I saw flames. Our house was on fire."

"When Jeff showed up that night he just said, 'I've got you. We're going to have somebody out here to board up your windows. We're going to have somebody secure your house tonight. What do you need?'"

"We stayed at a friend's that night, and then the next morning we met back here with Jeff. He already had all the windows and doors boarded up. He had the insurance company out here. He had the cleaners out here. He had a contractor here the next day. It was just all done so we didn't have to do anything. Really, Jeff did it all."

"I literally have not spoken to the insurance company this entire time, and yet they took care of everything. I would highly recommend Jeff Sabel and Sabel Adjusters. Jeff is definitely worth every penny."

"I love the finished product; we could not be happier! It's awesome. It's pretty much everything we wanted to do but never would have been able to."

Thank you Batman! We love Jeff Sabel! "- V.S. Plymouth, MA
