"The destruction caused by the fire was very, very emotional and we didn't know what we were going to. We didn't know what was going to happen, how things were done. This is our family home."

Recovery \$235,000

Insurance Offer \$168,000

"Our house was on fire. My neighbor came running across the lawn and said that there was smoke coming out of the solar panels on my roof. It was very emotional for us to see destruction to our home, but I wanted this fire out.

This is our family home. We didn't know what we're going to. We didn't know what was going to happen, how things were done.

It sounded like a good idea to hire somebody that would represent us. So I called Jeff that evening and we set up an appointment for the next day. He arrived on time, I liked his personality and I liked his low key approach. Once we hired Jeff, things started to happen, the very next day he had a demo team in place.

Jeff just took it from there, I really never talked to that adjuster again. Jeff's estimate on the loss was very thorough. We were impressed at how they did inventory on every single thing that we had. It was unbelievable.

We want to thank Jeff Sabel and his company for handling this loss for us and getting us back into our home."
