"Jeff Sabel was here the night of the fire. He fights for you. We had to tear everything down and start from scratch; it was a complete loss. I didn't know what a public adjuster was, but now I know. We could never have handled this claim on our own without Sabel Adjusters."

Recovery \$800,000

Insurance Offer \$635,000

"The night before Christmas Eve, we woke up to a fire, and before we got out to the back porch, the entire house was engulfed and we lost everything.

"I know that we would never have been able to do everything as quickly, or have the success we had dealing with the insurance company, without Jeff Sabel!

"Sabel Adjusters was there for us every step of the way. Jeff was here on Christmas Eve to make sure that we had everything we needed to move forward and start rebuilding our lives. He was here on Christmas Day. He answered all our questions. He fights for you because the insurance company can be difficult to deal with. He treated us as though we were his only clients at the time, and we couldn't be more grateful for everything that he's done for us.

"Losing everything is incredibly hard. But we have now moved back in and have a new house built to our specific needs, and it is beautiful. Thank you, Jeff and Sabel Adjusters."
